

Line: 60 spaces

ACCURACY STUDY 5

Directions: Type each line perfectly three times—not necessarily in succession, but in total. Begin a new line immediately when you make an error. Double-space between the groups of perfect lines. Inasmuch as it is difficult to make vertical strokes, begin typing each line very slowly and gradually increase your typing tempo as you become accustomed to the stroking pattern.

hold fold told cold sold bold gold old stole whole hole mole

Accuracy Study 6/Double-Letter Words

- Purpose:** To enhance accuracy in typing double-letter words.
- Features:** These drills contain many words possessing double letters. Double-letter strokes are among the slowest strokes in typing. The drills are arranged in alphabetical sequence.
- Line:** 61 spaces
- Directions:** Type each line perfectly five times—not necessarily in succession, but in total. Begin a new line immediately upon making an error. Double-space between groups of five perfect lines. In view of the fact that these drills are arranged alphabetically, it will be advisable for you to type all four drills, if you have problems making double-letter strokes, in order to acquire fluency in making any type of double-letter combination.
