

# LESSON 8

*It is important that you memorize the 25 key words for the alphabet and also the simple code for writing numbers. You should have a copy of them with you at all times to review in your spare moments. Once committed to memory, you will have them for life.*

## Warm-up Drills

Close your eyes and type the 25 key words and the code for numbers. Check against the copy and then do all the drills below.
